## Accessories

**Flexible headrest**

The head rest U 92 with joint can be inserted into the opening between the back body and the back cushions individually. Except ME armchair.

**Armchair**

The armchair is an element of the model range. The frame structure of ME ist different than the structure of the other elements (see order information). Therefore it has another look and seat firmness.

**Ottoman with storage space**

An ottoman has a fold-out function with integrated storage space. Functional ottomans do not have a spring core in the seat. All ottomans are available with castors for surcharge. See type guide for item no.

**Castors for ottomans**

The ottomans can be equipped with castors for surcharge. Two of the castors can be created. Thus a comfortable, big bed surface can be created.

**Order information****Back sides of sofas:**

All pieces are genuinely upholstered at the back.

**Positioning diagram:**

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for some elements in the type guide.

**Connecting sides:**

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

**Seam appearance:**

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

**Contrasting thread:**

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge. You will find the specified colours on the cover sheet of the individual leather qualities in our fabric/leather trolley. Please always state the contrast thread number, otherwise it will be delivered tone in tone.

**All of the dimensions given are approximate. dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height and refer to the leg height ca. 15 cm.**

Seat depth: approx. **51 cm**

Seat height: ca. **42 cm/44 cm**

Seat height armchair: ca. **40 cm/42 cm**

**Crease formation:**

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the

formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

**Individual armchair ME:**

The ME individual armchair has another frame structure than the model range. Therefore it has also another seat firmness.

Frame: Frame: beech-wood structure

seat suspension: permanently elastic wave springs

seat upholstery structure: coil spring core incorporated into

**ergo**-PUR-foam with diolen cover

back suspension: flexible upholstery straps

back upholstery structure: **ergo**-PUR foam with diolen cover

**Base leg Z:**

If elements and sofas with or without an armpart are to be attached directly to elements or sofas with or without an armpart, a base leg Z is required. The base leg must be ordered separately. See price list.

**Order checklist**

- Structure and cover (order information)
- Leg design/-height
- Ottomans
- Castors for ottomans (surcharge)
- Positioning diagram
- Contrasting thread
- Pillows
- Flexible plug-in headrest
- Base leg Z

### Leg and seat heights:

Due to different leg heights, the model is available in different seat and total heights. The leg version has to be indicated.

### Castors for ottomans:

Every ottoman can be equipped with castors for a surcharge. The item number is marked with an "R" (e.g. G...R). Two of the castors can be fixed. Please note that the castors are available in two different heights.

### Legs for armchair:

The ME individual armchair is available with the legs F 00/F 85, only. The armchair has another seat height than the other elements.

### Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection

with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
